EXECUTIVE SUMMARY

In an effort to extend the life of our asphalt pavements, we have started to utilize Reclamite from Corrective Asphalt Materials, LLC (CAM). Reclamite is a pavement rejuvenator and sealer that helps prevent and delay asphalt pavement failures.

This product will be applied to all the streets to be resurfaced in the 2021 Various Streets Project. We have set aside MFT funds for this purpose and have participated in a joint bid process for Reclamite with other local governments. The attached Bid Tabulations show a cost of \$0.94 per square yard of pavement. This includes pavement sweeping before and after the application, and resident notifications.

CAM is the sole source provider of Reclamite in the Midwest Region. In working with CAM last year, we found them to be both professional and responsive. Their project experience with pavement treatments and sealers is more than satisfactory. Based upon staff project experiences, I recommend that the 2021 Pavement Preservation Project be awarded to CAM, LLC in the not-to-exceed amount of \$100,000.00. Any remaining funds will be returned to the MFT account to be used at a later date.
